

FOR PROFESSIONALS & PARTNERS

Add Dybbs to Your Services

Attorneys, fiduciaries, professional organizers, senior move managers and estate service firms use Dybbs to bring order, transparency and calm to the personal property side of their work, with your branding on the experience.

What partners get

- **Your co-branded workspace.** Your logo and company information appear for your clients, on a platform built for property division, not a cobbled-together set of generic sharing tools.
- **Unlimited private inventory accounts** under one annual license, all with a single login for you, the creator.
- **AI-assisted listing.** Photograph or video a room and the system drafts the itemized inventory for you to confirm.
- **Job management and sharing.** Use it as a project tool across clients, with permissions and access restricted per family.
- **Division rounds as a service.** Run Asset Review, Emotional Value and Selection Order rounds, or bring in an independent administrator for sensitive situations.

A natural fit for

Estate attorneys & fiduciaries

A documented, defensible record of what was listed, shared and awarded.

Move managers & organizers

Fast room-by-room inventories that feed directly into client decisions.

Mediators & counselors

A blind, structured process that removes the perception of favoritism.

Why families thank you for it

Personal property is where estates get stuck. Giving the family a clear process, one shared inventory and fair rounds moves everyone toward agreement,
